Thanks to the generosity of JustHope Partners and US solidarity groups, Chacraseca's water project is getting some much needed TLC!

What's Needed in Nicaragua

new blender
(will use for raffle prize for community fundraiser to repair cemetery)

NEW children's underwear and socks

good, used laptops

bath towels

twin and queen sheets

As you can see, the three cisterns that were hand-built by the community in 2004 and serve as the heart of the community's potable water project, have out-lived their functional life and are breaking and crumbling badly. Without these cisterns, three-quarters of the community would be without water--about 5000 people!

So partners from Oklahoma, Florida, North Carolina, New York, and Colorado joined together to fund three replacement cisterns (\$6,000). We are still \$1000 short of our goal, but trusting that other partners will join the effort, we started construction on the new cisterns last week!
