The communities of Chacraesca and La Flor are still hoping for several more [high school scholarships](#).

- An organization that has provided 67 scholarships for the last several years has not renewed their commitment for 2013, so far.
- There are no school busses; part of each scholarship helps defray the \$1 per day cost of public transportation. In La Flor, a 16 year old boy was struck by a vehicle while walking the dangerous road between his home and school. We are still praying for his full recovery.

Teachers, parents, and students are all concerned about the safety and education of the young people in their communities. Please help our partners to succeed in their efforts to educate their young people. School starts February 11.
