Dear Partners in Justice and Hope...

The World Bank reports that *"Over the last decade or so, major progress has been made in improving service delivery to the poorest communities in Nicaragua, and results are beginning to show... Poverty reduction accelerated in the last five years, inequality has fallen, and social indicators are showing steady improvements."*

The three communities where JustHope works--Chacraseca, Santa Emilia, and LaFlor--are showing even better results than the national average. We are proud to be playing a small part in changing lives and futures in Nicaragua!

Please consider a year-end donation to help us complete our 2013 project goals and continue making a difference in 2014!

Happy Holidays...

Leslie
